(909) 705-2975 | kyceaharper@gmail.com | [LinkedIn](#) | [GitHub](#)

## EDUCATION

---

### University of California Riverside

June 2028

*B.S. in Computer Science | GPA: 3.67*

- Deans List (Fall 2024, Spring 2025)

## PROJECTS

---

### Siply-Hydration Tracker IOS application | *Personal Project*

- Built a native iOS app in SwiftUI for water tracking, utilizing @AppStorage for state management and creating engaging custom animations to visualize progress toward daily goals.

### UpokeDex Python | *Personal Project*

- Developed a database application to practice fetching, storing, and managing external data. Gained initial proficiency in API consumption (requests), SQLite database management (table creation, data insertion, constraints), and writing basic SQL queries for sorting and retrieval.

### Music Playlist Manager C++ | *Intro to Data Structures Project*

- Implemented a doubly-linked list to manage a music playlist in C++ for a Data Structures course. Applied concepts of manual memory management (new/delete), and algorithm design for node insertion, deletion (handling edge cases), and position changes.

## WORK EXPERIENCE

---

### Certified Trainer, Chipotle

Dec. 2024 - Present

*FOH & BOH Trainer*

- Served as the certified FOH/BOH employee trainer, developing structured training programs and documentation to standardize operational workflows. Conducted one-on-one mentorship, successfully transferring specialized knowledge and reducing the average time needed for new employees to achieve full productivity and adherence to quality standards.

### On-Duty Manager, Frugos Yucaipa

June. 2022 - June 2024

*Shift Lead*

- Functioned as solo Shift Manager, Optimized customer service flow and implemented social media outreach, resulting in measurable business growth and improved shop visibility.

## RELEVANT EXPERIENCE

---

### CutieHack | University of California Riverside Hackathon

*Project Lead in a 12 hour Hackathon*

- Led a two-person team in the 12-hour CutieHack 2024 to build DishCovery, an iOS meal generator. Managed all operations, defined UI/API integration tasks,, and successfully delivered a functional Swift app that fetches, processes, and displays complex recipe data from an external API.

### Google Cybersecurity Certificate | Coursera

*Certificate*

- Completed the Google Cybersecurity Professional Certificate; gained hands-on experience with SIEM, Linux, SQL, intrusion detection, and fundamental security operations (SecOps) for threat management and risk analysis.
